

the new services that ex radio provide are the very best.what a great midea  
i'am driving over to tampa have no idea what  
the local traffic satation is---just tune to my xm-radio to get all the local  
traffic info. i now use less gas, get better us of my time, help other people  
getting to wher the want to go by going around traffic clogs.

you know and i know the other did not think they could make money doing this xm-  
radio said we are here to help our customers. they did not raise their rater  
they just improved their service to help every one.

i thought that was the american way???????????
